

LAKE MARY CITY COMMISSION

**Lake Mary City Hall
100 N. Country Club Road**

**Regular Meeting
AGENDA**

THURSDAY, DECEMBER 04, 2014 7:00 PM

- 1. Call to Order**
- 2. Moment of Silence**
- 3. Pledge of Allegiance**
- 4. Roll Call**
- 5. Approval of Minutes: November 20, 2014**
- 6. Special Presentations**
- 7. Citizen Participation**
- 8. Unfinished Business**
 - A. Ordinance No. 1521 - Amending Chapter 150, Building Code and Chapter 152, Floodplain Management - Second Reading (Public Hearing) (Bruce Paster, Public Works Director)**
- 9. New Business**

10. Other Items for Commission Action

11. City Manager's Report

A. Items for Approval

- a. Final Design Plan for SunRail Entry Feature Sign**
- b. Vehicle and Equipment Replacements for FY 2015; and New Vehicle for New Police Sergeant**
- c. Computer Purchases and Surplus**

12. Mayor and Commissioners Report

13. City Attorney's Report

14. Adjournment

THE ORDER OF ITEMS ON THIS AGENDA IS SUBJECT TO CHANGE

Per the direction of the City Commission on December 7, 1989, this meeting will not extend beyond 11:00 P. M. unless there is unanimous consent of the Commission to extend the meeting.

PERSONS WITH DISABILITIES NEEDING ASSISTANCE TO PARTICIPATE IN ANY OF THESE PROCEEDINGS SHOULD CONTACT THE CITY ADA COORDINATOR AT LEAST 48 HOURS IN ADVANCE OF THE MEETING AT (407) 585-1424.

If a person decides to appeal any decision made by this Commission with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that, for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. Per State Statute 286.0105.

NOTE: If the Commission is holding a meeting/work session prior to the regular meeting, they will adjourn immediately following the meeting/work session to have dinner in the Conference Room. The regular meeting will begin at 7:00 P. M. or as soon thereafter as possible.

1 MINUTES OF THE LAKE MARY CITY COMMISSION MEETING held November 20,
2 2014, 7:00 P.M., Lake Mary City Commission Chambers, 100 North Country Club Road,
3 Lake Mary, Florida.

4
5
6 1. Call to Order
7

8 The meeting was called to order by Mayor David Mealor at 7:03 P.M.
9

10 2. Moment of Silence
11

12 3. Pledge of Allegiance
13

14 4. Roll Call
15

16 Mayor David Mealor
17 Commissioner Gary Brender
18 Deputy Mayor George Duryea
19 Commissioner Sidney Miller
20 Commissioner Jo Ann Lucarelli
21

Jackie Sova, City Manager
Carol Foster, City Clerk
Dianne Holloway, Finance Director
John Omana, Community Dev. Dir.
Steve Noto, Senior Planner
Bruce Paster, Public Works Director
Tom Tomerlin, Economic Dev. Mgr.
Bryan Nipe, Parks & Recreation Dir.
Wanda Broadway, HR Manager
Steve Bracknell, Police Chief
Joe Landreville, Deputy Fire Chief
Katie Reischmann, City Attorney
Mary Campbell, Deputy City Clerk
22
23
24
25
26
27
28
29

30 5. Approval of Minutes: November 6, 2014
31

32 **Motion was made by Commissioner Lucarelli to approve the minutes of the**
33 **November 6, 2014, meeting, seconded by Deputy Mayor Duryea and motion**
34 **carried unanimously.**
35

36 6. Special Presentations
37

38 There were no special presentations at this time.
39

40 7. Citizen Participation
41

42 Mayor Mealor welcomed the gentleman that is representing Seminole State College as
43 part of his college assignment. He and any students are always welcome as are others.
44 If any member of this Commission or the City Manager may be helpful do not hesitate to
45 contact us.
46

1 Mayor Mealor said he would like to do something out of the ordinary for him. He felt a
2 need to respond under Citizen Participation because there has been a mail out in this
3 community and it is entitled "West Crystal Lake May Be in Danger". He distributed
4 copies to the Commission (copy attached). This mailing has gone out to specific
5 residents of Lake Mary around Crystal Lake.
6

7 Mayor Mealor said the beauty of our system is that anyone can speak out, anyone can
8 raise any concern, and we welcome that. However, he believed this mailer to be
9 misleading to the residents around Crystal Lake. He said what he wanted to do is to let
10 you know in terms of the issue regarding the Lake Emma land use change. While he
11 didn't know the individuals involved and had not gone to the website, he wanted to
12 respond to this mailer on behalf of several of our citizens that have reached out to him
13 and he has tried to get back with them.
14

15 Mayor Mealor said this is the City process related to this particular item. On October
16 22, 2014, an application submitted by Mattamy Homes for a proposed future land use
17 (FLU) change from office and restricted commercial to high density residential was
18 reviewed and recommended for approval by the Planning & Zoning Board. The
19 Planning & Zoning Board is advisory only and does not represent final approval of any
20 number of homes. The final decision on the future land use change is made by the City
21 Commission. The City has not scheduled the future land use change for the City
22 Commission as the developer has been advised by the City to meet with the
23 surrounding residents to address their concerns. The applicant has also submitted a
24 planned unit development showing the layout of 81 units which has not been scheduled
25 for public hearings due to a number of design issues that need to be addressed by the
26 developer, including density. The public hearings at the Planning & Zoning Board and
27 the City Commission are open to public input.
28

29 Mayor Mealor said as far as the Save Lake Mary Lakes.com flier, what you may wish to
30 know about the information provided in the flier, the 40-acre tract on West Crystal Lake
31 is designated as a nature preserve and cannot and will not be developed. The nature
32 preserve has a future land use designation of public/semi-public and is governed by a
33 PUD agreement which prohibits development. The nature preserve is not designated
34 as office. While we recognize a citizen's right to reach out, all we want to do is let the
35 residents that have been reached know that some of the information submitted is not as
36 accurate as we would like to portray.
37

38 No one came forward and citizen participation was closed.
39

40 8. Unfinished Business
41

42 There was no unfinished business at this time.
43

44 9. New Business
45

1 A. Ordinance No. 1521 – Amending Chapter 150, Building Code and Chapter
2 152, Floodplain Management – First Reading (Public Hearing) (Bruce Paster,
3 Public Works Director)
4

5 The City Attorney read Ordinance No. 1521 by title only on first reading.
6

7 Mr. Paster said FEMA requested that we clarify a few words in our ordinance. There
8 are some minor changes to clarify intent. The other change that we added was since
9 the Board of Adjustment has now merged with the Planning & Zoning Board, we took
10 out references to the Board of Adjustment and changed that to Planning & Zoning
11 Board in Chapter 152.
12

13 Deputy Mayor Duryea said there are no changes other than a few minor word changes
14 to clarify the intent as far as the management district goes.
15

16 Mr. Paster said that was correct.
17

18 Mayor Mealor asked if anyone wanted to speak in reference to Ordinance No. 1521. No
19 one came forward and the public hearing was closed.
20

21 **Motion was made by Commissioner Brender to approve Ordinance No. 1521 on**
22 **first reading, seconded by Commissioner Lucarelli and motion carried by roll-call**
23 **vote: Commissioner Brender, Yes; Deputy Mayor Duryea, Yes; Commissioner**
24 **Miller, Yes; Commissioner Lucarelli, Yes; Mayor Mealor, Yes.**
25

26 B. Resolution No. 953 – Amending FY 2014 Budget (Dianne Holloway, Finance
27 Director)
28

29 The City Attorney read Resolution No. 953 by title only.
30

31 Ms. Holloway said as we approach closing out Fiscal Year 2014, we have a few items to
32 clean up in our budget. We need to increase revenues and expenditures in the General
33 Fund for three police grants. We had a \$17,688 JAG for the police department training
34 room rehab; a grant for the Trick or Tracker to purchase inventory equipment in the
35 amount of \$1,850; and we received \$1,323 for the bullet proof vest partnership. We
36 need to reduce the Capital Outlay in the Recreation Impact Fee Fund. The Heritage
37 Park project is currently on hold until the Downtown construction slows to an acceptable
38 level and can accommodate the disruption in that area. We also need to increase the
39 Capital Outlay in the Second Generation Sales Tax Fund for the Downtown right-of-way
40 project. Basically what we are doing is increasing the expenditures to finish using the
41 Second Generation Sales Tax. We need to increase our Health Insurance Fund by an
42 additional \$250,000 to cover unexpected medical claims in the health clinic operations.
43

44 Ms. Holloway recommended the Commission adopt Resolution No. 953.
45

1 Commissioner Lucarelli said regarding the additional \$250,000 in costs for the clinic,
2 she asked how we are doing financially with the clinic.

3
4 Ms. Holloway said we are doing very well. We just had some exceptionally high claims
5 this year.

6
7 Commissioner Brender asked if the unexpectedly high claims were against our
8 background insurer or unexpectedly higher use of the clinic itself.

9
10 Ms. Holloway said the majority of it is for our medical costs outside of the clinic.

11
12 **Motion was made by Deputy Mayor Duryea to approve Resolution No. 953,**
13 **seconded by Commissioner Brender and motion carried by roll-call vote: Deputy**
14 **Mayor Duryea, Yes; Commissioner Miller, Yes; Commissioner Lucarelli, Yes;**
15 **Commissioner Brender, Yes; Mayor Meador, Yes.**

16
17 10. Other Items for Commission Action

18
19 There were no other items to discuss at this time.

20
21 11. City Manager's Report

22
23 A. Items for Approval

24 1. Agreement with Advanced Data Processing, Inc. (Intermedix) for Medical
25 Transport Billing

26
27 Ms. Sova said this is our agreement with Advanced Data Processing, Inc. (Intermedix)
28 for medical transport billing. This is the firm that bills for our medical transports. We
29 have gone through this and it is time to update it. It has been our provider since
30 February 2005 and our current contract is about to expire. With the execution of the
31 attached agreement the fees are at 7.25% for net collections. That is no change since
32 January 2010. The Medicaid beneficiary account billing is \$13 per account which is no
33 change since 2005. The HIPAA compliance and Notice of Privacy Practices is \$88 per
34 month and no change since February 2005. This is for a one-year term beginning
35 January 1, 2015, with successive automatic one-year renewals unless either party
36 provides the other party with written notice. The annual contract cost to the City is
37 about \$45,000.

38
39 Ms. Sova asked the Commission to approve the contract with ADPI (Intermedix) for
40 transport billing.

41
42 Commissioner Brender asked the 7.25% of net collections versus the \$45,000.

43
44 Ms. Holloway said the \$45,000 is the annual cost. When we are billed it is based on
45 how many transports. They bill X amount and collect X amount. The 7.25 is the
46 percentage of the amount they are collecting. That plus the other components of the

1 Medicaid beneficiary account, the HIPAA compliance, and notice mailing are the three
2 components of the bill.

3
4 Commissioner Brender asked if we were paying \$45,000 plus all those other things.

5
6 Ms. Holloway answered negatively. It's those three components that make that up.
7

8 **Motion was made by Commissioner Brender to authorize the City Manager to**
9 **execute agreement with Advanced Data Processing, Inc. (Intermedix) for medical**
10 **transport billing, seconded by Commissioner Lucarelli and motion carried**
11 **unanimously.**

12
13 2. SunRail Entry Feature Sign
14

15 Ms. Sova said this is the SunRail entry feature sign. We have enhancement funds to
16 have a city entry feature sign at Palmetto and Lake Mary Boulevard. We have had
17 concepts before the Commission before and we have redone those and Mr. Noto has a
18 presentation.

19
20 Mayor Mealor said there are four designs that will be presented. Staff is seeking the
21 Commission's preference related to the preferred signage.

22
23 Mr. Noto said it has been two years since we were before the Commission talking about
24 this item. Staff originally prepared four designs in 2012 and after getting together
25 internally and coordinating with FastSigns, we have come up with four designs based
26 upon the sign at Trailhead Park at Rinehart Road and Lake Mary Boulevard.
27

28 Mr. Noto said the funding for this sign is tied in with the FDOT SunRail enhancement
29 funds. We are getting close to the point where those funds are going to go away. We
30 have been trying to get a final date from FDOT as to when that will happen; however,
31 we have been unable to get that date. The original expiration was around this time this
32 year (November/December 2014) but has now changed to spring of next year.
33

34 Mr. Noto said we are looking at a sign that is roughly \$14,000. Depending on the
35 direction we get this evening, we can move quickly to work with FastSigns to at least
36 have the steel portion of the sign constructed and possibly get our hands on some of
37 the stonework. Construction of the sign won't occur until a later date because we have
38 a number of capital projects happening at the corner of Palmetto and Lake Mary
39 Boulevard such as the traffic signal, turn lane, lift station and other improvements.
40

41 Mr. Noto showed a base sample of a sign on the overhead that shows the typical base
42 of the sign, it is 10' X 15' and what we have asked FastSigns to provide were three
43 other options that were a little bit different.
44

45 Mayor Mealor asked if the primary difference was the width.
46

1 Mr. Noto said that was correct. They also provided two other examples that show the
2 seal as part of the base. The cost will go up a little bit with that because they have to
3 add the stone around the seal. In this option you can see how the base lines up with
4 the edge of the metal. The last option the base comes out roughly 2-1/2 feet on either
5 side. They also provided an image showing what the sign would look like at the corner.
6 It is roughly to scale and you can see Station House in the background and the base of
7 the future traffic signal. It would not go exactly where it is shown because the turn lane
8 does not exist and there is some work that is going to be done on the pond. It will be
9 pushed back a little more to the west. The intent would be to avoid conflict with the
10 traffic signal post. We don't want that to block a large portion of the sign.

11
12 Mr. Noto showed samples of the stone. He showed a sample of the stone that is shown
13 on the graphics and is the stone that has been used at all the WaWa gas stations
14 around town. The other option is a bit darker and is staff's preferred option and the
15 same price point. We think this would hold up a lot better in the long run because it's
16 not as light. With the reclaimed irrigation in that area this would be a better option.

17
18 Mayor Mealor asked if there was any objection to staff preference for the cultured stone.

19
20 There were no objections from the Board.

21
22 Mayor Mealor said staff had direction to go with the second option.

23
24 Commissioner Brender asked the plan for Palmetto. There was talk about four-laning
25 Palmetto, talk about putting in turn lanes.

26
27 Mr. Noto said Public Works is currently working on a design to add one turn lane
28 southbound so folks can go to the west. Right now there is not enough right-of-way to
29 do anything more than that. The constraint is mainly on the east side of the road.
30 Widening of Palmetto will occur as redevelopment occurs over time. The signal will
31 likely be in within the next two to three months. We will take pause since there is so
32 much construction activity in that area of town then Public Works will work on adding the
33 turn lane, adding sidewalks, adjusting the pond, and adding a lift station.

34
35 Deputy Mayor Duryea asked Mr. Noto if they showed him any with rounded tops. He
36 thought that would go more with the one on Lake Mary Boulevard.

37
38 Mr. Noto said these are the only options we received. That doesn't mean that these are
39 not customizable. Right now there is a plan for a gap running front to back for flowers
40 and things of that nature. We anticipate doing a miniature plaza for a base so it is more
41 than just a sign planted on grass. If the Commission wants to see more rounding we
42 could work with the contractor on that.

43
44 Mayor Mealor suggested looking at the monument feature at the corner of Rinehart and
45 Lake Mary Boulevard, which we get great compliments on and it is featured frequently
46 in publications, and see if we can match the top of that to the top of this.

1
2 Commissioner Brender preferred the seal being in the base rather than floating in the
3 middle. With the seal being round would like to explore making the top a little less
4 squared off.

5
6 Mr. Nipe said the image shown is emulated off of the sign at Rinehart. The top is
7 squared off. If the Commission desires we could ask them to look at something
8 different. The only thing that changes is Downtown Lake Mary. The symbol is forward
9 rather than back and the stonework is different. We have more of a Grecian style
10 column at Rinehart.

11
12 Mayor Mealor said Commissioner Brender has talked about the seal being anchored
13 into the base. He asked if there was any objection to that.

14
15 Commissioner Lucarelli said it looks like the one at Rinehart is down and is not hanging
16 up. Her whole thing is for consistency is making it look like that one.

17
18 There was no objection from the Board.

19
20 Mayor Mealor asked staff to bring back a design that matches as closely as possible the
21 concept of Rinehart/Lake Mary Boulevard with the fact that we are using a different
22 stone as opposed to brick.

23
24 Commissioner Brender said that is assuming we don't want to go with anything rounded
25 because the one at Lake Mary Boulevard is rectangular. He agreed consistency was
26 important.

27
28 Mayor Mealor said we are looking for consistency with the exception of the stone.

29
30 Mr. Noto said we will have that for the next meeting.

31
32 **3. Appointment to Metroplan's Citizen Advisory Committee**
33

34 Ms. Sova said at the last meeting the Commission directed staff to solicit a resident to
35 represent the City on the Metroplan Citizen Advisory Committee and former
36 commissioner Jan Jernigan would be interested in serving in that capacity. She has
37 been on their Municipal Advisory Committee in the past. She asked the Commission to
38 appoint Jan Jernigan to the Metroplan Citizen Advisory Committee.

39
40 **Motion was made by Commissioner Brender to appoint Jan Jernigan to the**
41 **Metroplan Citizen Advisory Committee, seconded by Commissioner Lucarelli and**
42 **motion carried unanimously.**
43

44 Ms. Sova said all non-emergency offices will be closed next Thursday and Friday in
45 observance of Thanksgiving. Solid waste collection for Thanksgiving Day will be
46 provided on the makeup day of Saturday, November 29th.

1
2 Ms. Sova said she has some personnel changes. Police Officer Matt Schaffer has been
3 promoted to Sergeant effective the first of the month. After more than 28 years with the
4 City Lt. Terry Salsbury in the Fire Department will be retiring on December 5th. There is
5 a reception for him tomorrow from 2:00 P.M. to 4:00 P.M. in the training room at
6 Wallace Court.
7

8 Ms. Sova said a round of applause to our SWAT team who recently competed in the
9 32nd Annual SWAT Roundup International. The guys gave it their all for five days and
10 overcame many obstacles and arduous tasks and after competing against teams from
11 all over the world their hard work paid off with a final ranking of 32 out of 51.
12

13 Ms. Sova said WineART Wednesday featuring the DailyCity.Com Food Truck Bazaar
14 will be held December 3rd from 5:00 P.M. to 9:00 P.M. in Central Park.
15

16 Ms. Sova reminded everyone that Holiday in the Park is Friday, December 5th, from
17 6:00 P.M. to 8:00 P.M. with tree lighting at 6:30 P.M. followed by Mr. and Mrs. Claus
18 coming at 6:45 P.M. on the fire truck. There will be face painting, kids' games and
19 prizes, and a children's train. There will be free cookies given out to those who bring a
20 canned good or unwrapped toy to donate to the City's holiday drive. This year we have
21 an expanding music and light show.
22

23 Ms. Sova said the holiday toy and food drive gets underway tomorrow. You can drop
24 off new unwrapped toys and unopened non-perishable food items at the boxes at city
25 hall, police department, fire stations, and our Municipal Services Complex through
26 December 12th. You can contact Human Resources at 407-585-1424 for more
27 information.
28

29 Ms. Sova said we will cancel the first meeting in January due to its falling on New Year's
30 Day.
31

32 Ms. Sova said Bryan Nipe has received the Parks & Recreation Accreditation plaque
33 and would come up and show it to the Commission.
34

35 Mr. Nipe said he was extremely proud and honored to present this tonight. We are one
36 of only 26 accredited national agencies in the state and just over 130 in the nation. That
37 is for public agencies such as cities, counties, and the military. We were accredited with
38 a naval base in Georgia this year. We are very proud of this. It was a huge team effort,
39 totally inclusive, and we included all the departments. We appreciate everybody's time
40 and the City Manager and Commission's support.
41

42 Mayor Meador said there were more than 405 municipalities in the State of Florida and
43 we are in the top 5%. What a compliment to Mr. Nipe and his team's hard work.
44

45 Ms. Sova said on some of the Parks & Recreation trucks they have the accreditation
46 decal.

1
2 Mayor Mealor said we are honored to have two of the newest elected members of a
3 Central Florida community. We have the Mayor and the newest Commissioner for the
4 City of Debar. Their SunRail station has had such an impact on the region.

5
6 12. Mayor and Commissioners' Reports (4)
7

8 Mayor Mealor had no report at this time.
9

10 Commissioner Lucarelli said she enjoyed listening to our Mayor give one of the better
11 presentations at PBAS last week.
12

13 Commissioner Lucarelli said she attended the Senior Intervention Group meeting. The
14 big thing Zach (Hudson) was asking for is if you know someone who is in need of a
15 frozen turkey or a hot meal option for the elderly. We are working on delivering the
16 frozen turkeys Monday and on Wednesday evening will be delivering the hot meals.
17 We have a lot of meals and turkeys being donated. We need to know if there is
18 anybody out there in need that we don't know about yet and get them on our list. That
19 is a countywide effort.
20

21 Commissioner Lucarelli said she attended CLEO and attended a portion of the RPA
22 meeting. She said Mr. Omana finished up for her because she had to leave for a work
23 meeting. Nothing yet on Lake Mary coming forward but there is a project with the
24 charter school where the old theater used to be by the entrance to the college that will
25 eventually be coming before the RPA and CRA Boards for approval. She will keep the
26 Commission posted on that.
27

28 Mayor Mealor said the Senior Intervention Group is a remarkable service to the greater
29 community. It is the activity that has helped Officer Hudson receive the National Police
30 Officer of the Year recognition. Paster Montgomery serves as the chaplain so it might
31 be appropriate to reach out to him.
32

33 Commissioner Brender said it is our City Attorney's birthday and extended birthday
34 wishes.
35

36 Deputy Mayor Duryea said he was excited about what's going on outside and was sure
37 it is going to be better than it was last year and the year before. It's nice.
38

39 Mayor Mealor said the December 5th event is going to be very special. The City did
40 extend an invitation to our County Chairman Commissioner Carey. This is part of her
41 district and hopefully her schedule will allow her to join us.
42

43 Commissioner Miller said he would like to comment on the dedication of the Veterans'
44 Park in Timacuan. Commissioner Brender was honored—he was our veteran. The
45 Mayor, Thom Greene, and City Manager were there. Our Mayor did us proud and gave
46 a magnificent speech about veterans and the dedication of the park. Our role in that

1 was as the homeowners' association at Timacuan was deciding to do this and getting
2 ready to spend all that money, they discovered they didn't own the land but the City did.
3 The City gave them the land to do the park.

4
5 Commissioner Miller said he went for his training for the Municipal Advisory Committee
6 for Metroplan Orlando. Harry Barley and Virginia Whittington spent over an hour with
7 him and he was somewhat surprised. The Municipal Advisory Committee was formed
8 after their light rail attempt was started and two mayors were very upset that they did
9 not have a vote on Metroplan Orlando and light rail was going to come through their
10 cities. In order to give them a voice they created the Municipal Advisory Committee. It
11 consists of cities up to 47,000 in population all have a seat on the Metroplan Orlando
12 Board of Directors. If you have a lower population than that you don't get a seat. That
13 represents 22 cities and 309,000 people. There are 22 people that can belong to that
14 committee but only 17 permit and we are one of the ones that sit on that. The chair of
15 that committee has a seat on the board. All of that is changing. The Metroplan Orlando
16 Board of Directors is 19 people by statute and has now been changed to 25, so there
17 will be changes on who has seats on the Metroplan Orlando.

18
19 Mayor Meador said they appreciated Commissioner Miller's willingness to serve on that
20 committee and believed his expertise is going to be invaluable as we move forward.

21
22 Mayor Meador said tomorrow the Seminole County Legislative Delegation will hold their
23 public hearings and Commissioner Lucarelli will be presenting. Anybody who has a
24 request or feels there is a need for legislative support it is imperative that a public
25 hearing take place. That is available to our community tomorrow between 9:00 A.M.
26 and 1:00 P.M.

27
28 Commissioner Miller asked Mayor Meador if he knew how that meeting was structured
29 because the notification says 9:00 A.M. to 1:00 P.M. He asked if that was something
30 you should go to and expect to be there four hours.

31
32 Mayor Meador said not at all. He said he would speak for himself as a former chair of
33 that legislative delegation that the last thing you would want is an extended hearing.
34 There are far more requests than there will ever be ways to meet those so less is more.
35 Chairman Simmons asked that information be submitted no later than Wednesday
36 evening so they can compile that. If you have a need or a wish to speak for that group,
37 simply go at 9:00 A.M., look at the timeframe and they will give you a guesstimate as to
38 when it is and you can come back or present and leave. It is a very important activity in
39 terms of the fact that a legislative body cannot respond to something at the last moment
40 had there not been some kind of public recognition or input.

41
42 13. City Attorney's Report

43
44 Ms. Reischmann had no report at this time.

DRAFT

MEMORANDUM

DATE: December 4, 2014

TO: Mayor and City Commission

FROM: Danielle Koury, P.E., Stormwater Engineer

THRU: Bruce Paster, Public Works Director

VIA: Jackie Sova, City Manager

SUBJECT: Ordinance No. 1521 – Amending Chapter 150, Building Code and Chapter 152, Floodplain Management

DISCUSSION: Changes are required to be made by the Federal Emergency Management Agency (FEMA) to the City's adopted Floodplain Management Ordinance, previously adopted by the City on May 17, 2012.

Attached is the revised Chapter 150, Building Code and Chapter 152, Floodplain Management Ordinance. The primary reason for the revisions is to modify and/or add wording to clarify intent. Additionally, Section 152.07 is being amended to reflect that the Planning and Zoning Board will hear and decide on requests for appeals and requests for variances rather than the Board of Adjustment. As you will recall, you previously merged the Board of Adjustment with the Planning and Zoning Board.

RECOMMENDATION: City Commission adopt Ordinance No. 1521 amending Chapter 150, Building Code and Chapter 152, Floodplain Management Ordinance.

ORDINANCE NO. 1521

AN ORDINANCE OF THE CITY OF LAKE MARY, FLORIDA, AMENDING CHAPTER 150 OF THE CODE OF ORDINANCES ENTITLED “BUILDING CODE” AND CHAPTER 152 ENTITLED “FLOODPLAIN MANAGEMENT” TO MEET REQUIREMENTS OF THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA); PROVIDING FOR THE PLANNING AND ZONING BOARD TO HANDLE VARIANCES AND APPEALS FROM CHAPTER 150; PROVIDING FOR SEVERABILITY, CODIFICATIONS AND EFFECTIVE DATE.

WHEREAS, the Legislature of the State of Florida has, in Chapter 166, Florida Statutes, conferred upon local governments the authority to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry; and

WHEREAS, the Federal Emergency Management Agency has identified special flood hazard areas within the boundaries of the City of Lake Mary, Florida and such areas may be subject to periodic inundation which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare, and

WHEREAS, the City of Lake Mary, Florida was accepted for participation in the National Flood Insurance Program on March 18, 1980 and the City Commission desires to continue to meet the requirements of Title 44 Code of Federal Regulations, Sections 59 and 60, necessary for such participation; and

WHEREAS, Chapter 553, Florida Statutes, was adopted by the Florida Legislature to provide a mechanism for the uniform adoption, updating, amendment, interpretation and enforcement of a state building code, called the *Florida Building Code*; and

WHEREAS, section 553.73(5), Florida Statutes, allows adoption of local administrative amendments to the *Florida Building Code* to implement the National Flood Insurance Program; and

WHEREAS, the City Commission combined the duties of the Board of Adjustment with those of the Planning and Zoning Board making it necessary to amend the code.

NOW THEREFORE BE IT ORDAINED BY THE CITY COMMISSION:

SECTION 1. That the Code of Ordinances is hereby amended as follows:

§ 150.03 ADOPTION OF STANDARD CODES

(f) Section 107

107.6.1 Building permits issued on the basis of an affidavit. Pursuant to the requirements of federal regulation for participation in the National Flood Insurance Program (44 C.F.R. Sections 59 and 60), the authority granted to the Building Official to issue permits, to rely on inspections, and to accept plans and construction documents on the basis of affidavits and plans submitted pursuant to **Section** 105.14 and Section 107.6 shall not extend to the flood load and flood resistance construction requirements of the Florida Building Code.

§ 152.01 GENERAL PROVISIONS.

(A) Title. These regulations shall be known as the Floodplain Management Ordinance of the City of Lake Mary, Florida, hereinafter referred to as "this chapter."

(B) Scope. The provisions of this chapter shall apply to all development that is wholly within or partially within any flood hazard area, including but not limited to the subdivision of land; filling, grading, and other site improvements and utility installations; construction, alteration, remodeling, enlargement, improvement, replacement, repair, relocation or demolition of buildings, structures, and facilities that are exempt from the Florida Building Code; placement, installation, or replacement of manufactured homes and manufactured buildings; installation or replacement of tanks; placement of recreational vehicles; installation of swimming pools; and any other development.

(C) Intent. The purposes of this chapter and the flood load and flood resistant construction requirements of the Florida Building Code are to establish minimum requirements to safeguard the public health, safety, and general welfare and to minimize public and private losses due to flooding through regulation of development in flood hazard areas to:

- (1) Minimize unnecessary disruption of commerce, access and public service during times of flooding;
- (2) Require the use of appropriate construction practices in order to prevent or minimize future flood damage;
- (3) Manage filling, grading, dredging, mining, paving, excavation, drilling operations, storage of equipment or materials, and other development which may increase flood damage or erosion potential;
- (4) Manage the alteration of flood hazard areas, watercourses, and shorelines to minimize the impact of development on the natural and beneficial functions of the floodplain;
- (5) Minimize damage to public and private facilities and utilities;
- (6) Help maintain a stable tax base by providing for the sound use and development of flood hazard areas;
- (7) Minimize the need for future expenditure of public funds for flood control projects and response to and recovery from flood events; and
- (8) Meet the requirements of the National Flood Insurance Program for community participation as set forth in the Title 44 Code of Federal Regulations, Section 59.22.

(D) Coordination with the Florida Building Code. This chapter is intended to be administered and enforced in conjunction with the Florida Building Code. Where cited, ASCE 24 refers to the edition of the standard that is referenced by the Florida Building Code.

(E) Warning. The degree of flood protection required by this chapter and the Florida Building Code, as amended by this community, is considered the minimum reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur. Flood heights may be increased by man-made or natural causes. This chapter does not imply that land outside of mapped special flood hazard areas, or that uses permitted within such flood hazard areas, will be free from flooding or flood damage. The flood hazard areas and base flood elevations contained in the flood insurance study and shown on flood insurance rate maps and the requirements of Title 44 Code of Federal Regulations, Sections 59 and 60 may be revised by the Federal Emergency Management Agency, requiring this community to revise these regulations to remain eligible for participation in the National Flood Insurance Program. No guaranty of vested use, existing use, or future use is implied or expressed by compliance with this chapter.

(F) Disclaimer of Liability. This chapter shall not create liability on the part of the City Commission of the City of Lake Mary, Florida or by any officer or employee thereof for any flood damage that results from reliance on this chapter or any administrative decision lawfully made thereunder.

§ 152.02 APPLICABILITY.

(A) **General.** Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable.

(B) **Areas to which this chapter applies.** This chapter shall apply to all flood hazard areas within the City of Lake Mary, Florida, as established in § 152.02(C) of this chapter.

(C) **Basis for establishing flood hazard areas.** The Flood Insurance Study for Seminole County, Florida and Incorporated Areas dated September 28, 2007, and all subsequent amendments and revisions, and the accompanying flood insurance rate maps (FIRM), and all subsequent amendments and revisions to such maps, are adopted by reference as a part of this chapter and shall serve as the minimum basis for establishing flood hazard areas. Studies and maps that establish flood hazard areas are on file at:

Seminole County Public Library
Lake Mary Branch
580 Greenway Blvd
Lake Mary, FL 32746

(D) Submission of additional data to establish flood hazard areas. To establish flood hazard areas and base flood elevations, pursuant to § 152.05 of this chapter, the Floodplain Administrator may require submission of additional data. Where field surveyed topography prepared by a Florida licensed professional surveyor or digital topography accepted by the community indicates that ground elevations:

(1) Are below the closest applicable base flood elevation, even in areas not delineated as a special flood hazard area on a FIRM, the area shall be considered as a flood hazard area and subject to the requirements of this chapter and, as applicable, the requirements of the Florida Building Code.

(2) Are above the closest applicable base flood elevation, the area shall be regulated as special flood hazard area unless the applicant obtains a Letter of Map Change that removes the area from the special flood hazard area.

(E) Other laws. The provisions of this chapter shall not be deemed to nullify any provisions of local, state or federal law.

(F) Abrogation and greater restrictions. This chapter supersedes any ordinance in effect for management of development in flood hazard areas. However, it is not intended to repeal or abrogate any existing ordinances including but not limited to land development regulations, zoning ordinances, ~~or stormwater management regulations~~ **or the Florida Building Code**. In the event of a conflict between this chapter and any other ordinance, the more restrictive shall govern. This chapter shall not impair any deed restriction, covenant or easement, but any land that is subject to such interests shall also be governed by this chapter.

(G) Interpretation. In the interpretation and application of this chapter, all provisions shall be:

- (1) Considered as minimum requirements;
- (2) Liberally construed in favor of the governing body; and
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

§ 152.03 DUTIES AND POWERS OF THE FLOODPLAIN ADMINISTRATOR.

(A) Designation. The Public Works Director is designated as the Floodplain Administrator. The Floodplain Administrator may delegate performance of certain duties to other employees.

(B) General. The Floodplain Administrator is authorized and directed to administer and enforce the provisions of this chapter. The Floodplain Administrator shall have the authority to render interpretations of this chapter consistent with the intent and purpose of this chapter and may establish policies and procedures in order to clarify the application of its provisions. Such interpretations, policies, and procedures shall not

have the effect of waiving requirements specifically provided in this chapter without the granting of a variance pursuant to § 152.07 of this chapter.

(C) Applications and permits. The Floodplain Administrator, in coordination with other pertinent offices of the community, shall:

- (1) Review applications and plans to determine whether proposed new development will be located in flood hazard areas;
- (2) Review applications for modification of any existing development in flood hazard areas for compliance with the requirements of this chapter;
- (3) Interpret flood hazard area boundaries where such interpretation is necessary to determine the exact location of boundaries; a person contesting the determination shall have the opportunity to appeal the interpretation;
- (4) Provide available flood elevation and flood hazard information;
- (5) Determine whether additional flood hazard data shall be obtained from other sources or shall be developed by an applicant;
- (6) Review applications to determine whether proposed development will be reasonably safe from flooding;
- (7) Issue floodplain development permits or approvals for development other than buildings and structures that are subject to the Florida Building Code, including buildings, structures and facilities exempt from the Florida Building Code, when compliance with this chapter is demonstrated, or disapprove the same in the event of noncompliance;
- (8) Coordinate with and provide comments to the Building Official to assure that applications, plan reviews, and inspections for buildings and structures in flood hazard areas comply with the applicable provisions of this chapter.

(D) Determinations for existing buildings and structures Substantial improvements and substantial damage determinations. For applications for building permits to improve buildings and structures, including alterations, movement, enlargement, replacement, repair, change of occupancy, additions, rehabilitations, renovations, and any other improvement of or work on such buildings and structures, the Floodplain Administrator, in coordination with the Building Official, shall:

- (1) Estimate the market value, or require the applicant to obtain an appraisal of the market value prepared by a qualified independent appraiser, of the building or structure before the start of construction of the proposed work. In the case of repair, the market value of the building or structure shall be the market value before the damage occurred and before any repairs are made;
- (2) Compare the cost to perform the improvement, the cost to repair a damaged building to its pre-damaged condition, or the combined costs of improvements and repairs, if applicable, to the market value of the building or structure;
- (3) Determine and document whether the proposed work constitutes substantial improvement or repair of substantial damage. The determination requires evaluation of previous permits issued for improvements and repairs as specified in the definition of "substantial improvement"; and

(4) Notify the applicant if it is determined that the work constitutes substantial improvement or repair of substantial damage and that compliance with the flood resistant provisions of the Florida Building Code and this chapter is required.

(E) Modifications of the strict application of the requirements of the Florida Building Code. The Floodplain Administrator shall review requests submitted to the Building Official that seek approval to modify the strict application of the flood load and flood resistant construction requirements of the Florida Building Code to determine whether such requests require the granting of a variance pursuant to § 152.07 of this chapter.

(F) Notices and orders. The Floodplain Administrator shall coordinate with appropriate local agencies for the issuance of all necessary notices or orders to ensure compliance with this ordinance.

(G) Inspections. The Floodplain Administrator shall make the required inspections as specified in § 152.06 of this chapter for development that is not subject to the Florida Building Code, including buildings, structures and facilities exempt from the Florida Building Code. The Floodplain Administrator shall inspect flood hazard areas to determine if development is undertaken without issuance of a permit.

(H) Other duties of the Floodplain Administrator. The Floodplain Administrator shall have other duties, including but not limited to:

(1) Establish, in coordination with the Building Official, procedures for administering and documenting determinations of substantial improvement and substantial damage made pursuant to § 152.04 of this chapter;

(2) Require that applicants proposing alteration of a watercourse notify adjacent communities and the Florida Division of Emergency Management, State Floodplain Management Office, and submit copies of such notifications to the Federal Emergency Management Agency (FEMA);

(3) Require applicants who submit hydrologic and hydraulic engineering analyses to support permit applications to submit to FEMA the data and information necessary to maintain the flood insurance rate maps if the analyses propose to change base flood elevations, flood hazard area boundaries, or floodway designations. Such submissions shall be made within six months of such data becoming available;

(4) Review required design certifications and documentation of elevations specified by this chapter and the Florida Building Code and this chapter to determine that such certifications and documentations are complete; and

(5) Notify the Federal Emergency Management Agency when the corporate boundaries of the City of Lake Mary, Florida are modified.

(I) Floodplain management records. Regardless of any limitation on the period required for retention of public records, the Floodplain Administrator shall maintain and permanently keep and make available for public inspection all records that are necessary for the administration of this chapter and the flood resistant construction

requirements of the Florida Building Code, including flood insurance rate maps; letters of change; records of issuance of permits and denial of permits; determinations of whether proposed work constitutes substantial improvement or repair of substantial damage; required design certifications and documentation of elevations specified by the Florida Building Code and this chapter; notifications to adjacent communities, FEMA, and the state related to alterations of watercourses; assurances that the flood carrying capacity of altered watercourses will be maintained; documentation related to appeals and variances, including justification for issuance or denial; and records of enforcement actions taken pursuant to this chapter and the flood resistant construction requirements of the Florida Building Code. These records shall be available for public inspection at:

Municipal Services Complex
911 Wallace Ct.
Lake Mary, FL 32746

§ 152.04 PERMITS.

(A) Permits required. Any owner or owner's authorized agent (hereinafter "applicant") who intends to undertake any development activity within the scope of this chapter including buildings, structures and facilities exempt from the Florida Building Code, which is wholly within or partially within any flood hazard area shall first make application to the Floodplain Administrator, and the Building Official if applicable, and shall obtain the required permit(s) and approval(s). No such permit or approval shall be issued until compliance with the requirements of this chapter and all other applicable codes and regulations has been satisfied.

(B) Floodplain development permits or approvals. Floodplain development permits or approvals shall be issued pursuant to this chapter for any development activities not subject to the requirements of the Florida Building Code, including buildings, structures and facilities exempt from the Florida Building Code. Depending on the nature and extent of proposed development that includes a building or structure, the Floodplain Administrator may determine that a floodplain development permit or approval is required in addition to a building permit.

(C) Buildings, structures and facilities exempt from the Florida Building Code. Pursuant to the requirements of federal regulation for participation in the National Flood Insurance Program (44 C.F.R. Sections 59 and 60), floodplain development permits or approvals shall be required for the following buildings, structures and facilities that are exempt from the Florida Building Code and any further exemptions provided by law, which are subject to the requirements of this chapter:

- (1) Railroads and ancillary facilities associated with the railroad;
- (2) Nonresidential farm buildings on farms, as provided in F.S. § 604.50;
- (3) Temporary buildings or sheds used exclusively for construction purposes;
- (4) Mobile or modular structures used as temporary offices;

(5) Those structures or facilities of electric utilities, as defined in F.S. § 366.02, which are directly involved in the generation, transmission, or distribution of electricity;

(6) Chickees constructed by the Miccosukee Tribe of Indians of Florida or the Seminole Tribe of Florida. As used in this paragraph, the term "chickee" means an open-sided wooden hut that has a thatched roof of palm or palmetto or other traditional materials, and that does not incorporate any electrical, plumbing, or other non-wood features;

(7) Family mausoleums not exceeding 250 square feet in area which are prefabricated and assembled on site or preassembled and delivered on site and have walls, roofs, and a floor constructed of granite, marble, or reinforced concrete;

(8) Temporary housing provided by the Department of Corrections to any prisoner in the state correctional system; and

(9) Structures identified in F.S. § 553.73(10)(k), are not exempt from the Florida Building Code if such structures are located in flood hazard areas established on flood insurance rate maps.

(D) Application for a permit or approval. To obtain a floodplain development permit or approval the applicant shall first file an application in writing on a form furnished by the community. The information provided shall:

(1) Identify and describe the development to be covered by the permit or approval;

(2) Describe the land on which the proposed development is to be conducted by legal description, street address or similar description that will readily identify and definitively locate the site;

(3) Indicate the use and occupancy for which the proposed development is intended;

(4) Be accompanied by a site plan or construction documents as specified in § 152.05 of this chapter;

(5) State the valuation of the proposed work;

(6) Be signed by the applicant or the applicant's authorized agent; and

(7) Give such other data and information as required by the Floodplain Administrator.

(E) Validity of permit or approval. The issuance of a floodplain development permit or approval pursuant to this chapter shall not be construed to be a permit for, or approval of, any violation of this chapter, the Florida Building Codes, or any other ordinance of this community. The issuance of permits based on submitted applications, construction documents, and information shall not prevent the Floodplain Administrator from requiring the correction of errors and omissions.

(F) Expiration. A floodplain development permit or approval shall become invalid unless the work authorized by such permit is commenced within 180 days after its issuance, or if the work authorized is suspended or abandoned for a period of 180 days after the work commences. Extensions for periods of not more than 180 days each shall be requested in writing and justifiable cause shall be demonstrated.

(G) Suspension or revocation. The Floodplain Administrator is authorized to suspend or revoke a floodplain development permit or approval if the permit was issued in error, on the basis of incorrect, inaccurate or incomplete information, or in violation of this chapter or any other ordinance, regulation or requirement of this community.

(H) Other permits required. Floodplain development permits and building permits shall include a condition that all other applicable state or federal permits be obtained before commencement of the permitted development, including but not limited to the following:

- (1) The St. John's River Water Management District; F.S. § 373.036;
- (2) Florida Department of Health for onsite sewage treatment and disposal systems; F.S. § 381.0065, and Chapter 64E-6, F.A.C.;
- (3) Florida Department of Environmental Protection for activities subject to the Joint Coastal Permit; F.S. § 161.055; and
- (4) Florida Department of Environmental Protection for activities that affect wetlands and alter surface water flows, in conjunction with the U.S. Army Corps of Engineers; Section 404 of the Clean Water Act.

(5) Federal permits and approval.

§ 152.05 SITE PLANS AND CONSTRUCTION DOCUMENTS.

(A) Information for development in flood hazard areas.

(1) The site plan or construction documents for any development subject to the requirements of this chapter shall be drawn to scale and shall include, as applicable to the proposed development:

(a) Delineation of flood hazard areas, floodway boundaries and flood zone(s), base flood elevation(s), and ground elevations if necessary for review of the proposed development;

(b) Where ~~flood hazard areas~~, base flood elevations, or floodway data are not included on the FIRM or in the flood insurance study, they shall be established in accordance with ~~division (B) of this section~~ **§ 152.05(B)(2) or (3) of this chapter;**

(c) Where the parcel on which the proposed development will take place will have more than 50 lots or is larger than five acres and the base flood elevations are not included on the FIRM or in the flood insurance study, such elevations shall be established in accordance with § 152.05(B)(1) or (2) of this chapter;

(d) Location of the proposed activity and proposed structures, and locations of existing buildings and structures;

(e) Minimum finished floor elevation set to at least 1.5 feet above the 100-year flood elevation. It is the responsibility of the developer to insure that all finished floor elevations are set to 1.5 feet above the 100-year flood elevation;

(f) Location, extent, amount, and proposed final grades of any filling, grading, or excavation;

(g) Where the placement of fill is proposed, the amount, type, and source of fill material; compaction specifications; a description of the intended purpose of the fill areas; and evidence that the proposed fill areas are the minimum necessary to achieve the intended purpose;

(h) Location, extent, and amount of the floodplain compensation area; and

(i) Existing and proposed alignment of any proposed alteration of a watercourse.

(2) The Floodplain Administrator is authorized to waive the submission of site plans, construction documents, and other data that are required by this chapter but that are not required to be prepared by a registered design professional if it is found that the nature of the proposed development is such that the review of such submissions is not necessary to ascertain compliance with this chapter.

(B) Information in flood hazard areas without base flood elevations (approximate Zone A). Where flood hazard areas are delineated on the FIRM and base flood elevation data have not been provided, the Floodplain Administrator shall:

~~(1) Obtain, review, and provide to applicants base flood elevation and floodway data available from a federal or state agency or other source or require the applicant to obtain and use base flood elevation and floodway data available from a federal or state agency or other source.;~~ Require the applicant to include base flood elevation data prepared in accordance with currently accepted engineering practices.

~~(2) Require the applicant to develop base flood elevation data prepared in accordance with currently accepted engineering practices;~~ Obtain, review, and provide to applicants base flood elevation and floodway data available from a federal or state agency or other source or require the applicant to obtain and use base flood elevation and floodway data available from a federal or state agency or other source.

(3) Where base flood elevation and floodway data are not available from another source, ~~the base flood elevation is three and one-half feet above the highest adjacent grade at the location of the development, provided there is no evidence indicating flood depths have been or may be greater than three and one-half feet. where the available data are deemed by the Floodplain Administrator to not reasonably reflect flooding conditions, or where the available data are known to be scientifically or technically incorrect or otherwise inadequate:~~

a. Require the applicant to include base flood elevation data prepared in accordance with currently accepted engineering practices; or

b. Specify that the base flood elevation is three and one-half (3.5) feet above the highest adjacent grade at the location of the development, provided there is no evidence indicating flood depths have been or may be greater than three and one-half (3.5) feet.

(4) Where the base flood elevation data are to be used to support a Letter of Map Change from FEMA, advise the applicant that the analyses shall be prepared by a Florida licensed engineer in a format required by FEMA, and that it shall be the

responsibility of the applicant to satisfy the submittal requirements and pay the processing fees.

(C) Additional analyses and certifications. As applicable to the location and nature of the proposed development activity, and in addition to the requirements of this section, the applicant shall have the following analyses signed and sealed by a Florida licensed engineer for submission with the site plan and construction documents:

(1) For development activities proposed to be located in a regulatory floodway, a floodway encroachment analysis that demonstrates that the encroachment of the proposed development will not cause any increase in base flood elevations; where the applicant proposes to undertake development activities that do increase base flood elevations, the applicant shall submit such analysis to FEMA as specified in § 152.05(D) of this chapter and shall submit the conditional letter of map revision, if issued by FEMA, with the site plan and construction documents;

(2) For development activities proposed to be located in a riverine flood hazard area for which base flood elevations are included in the flood insurance study or on the FIRM and floodways have not been designated, ~~a floodway encroachment analysis~~ **hydrological and hydraulic analyses which that** demonstrates that the cumulative effect of the proposed development, when combined with all other existing and anticipated flood hazard area encroachments, will not increase the base flood elevation more than one foot at any point within the community. This requirement does not apply in isolated flood hazard areas not connected to a riverine flood hazard area or in flood hazard areas identified as Zone AO or Zone AH; and

(3) For alteration of a watercourse, an engineering analysis prepared in accordance with standard engineering practices which demonstrates that the flood-carrying capacity of the altered or relocated portion of the watercourse will not be decreased, and certification that the altered watercourse shall be maintained in a manner which preserves the channel's flood-carrying capacity; the applicant shall submit the analysis to FEMA as specified in §152.05(D) of this chapter.

(D) Submission of additional data. When additional hydrologic, hydraulic or other engineering data, studies, and additional analyses are submitted to support an application, the applicant has the right to seek a letter of map change from FEMA to change the base flood elevations, change floodway boundaries, or change boundaries of flood hazard areas shown on FIRMs, and to submit such data to FEMA for such purposes. The analyses shall be prepared by a Florida licensed engineer in a format required by FEMA. Submittal requirements and processing fees shall be the responsibility of the applicant.

§ 152.06 INSPECTIONS.

(A) General. Development for which a floodplain development permit or approval is required shall be subject to inspection.

(B) Development other than buildings and structures. The Floodplain Administrator shall inspect all development to determine compliance with the requirements of this chapter and the conditions of issued floodplain development permits or approvals.

(C) Buildings, structures and facilities exempt from the Florida Building Code. The Floodplain Administrator shall inspect buildings, structures and facilities exempt from the Florida Building Code to determine compliance with the requirements of this chapter and the conditions of issued floodplain development permits or approvals.

(D) Buildings, structures and facilities exempt from the Florida Building Code, lowest floor inspection. Upon placement of the lowest floor, including basement, and prior to further vertical construction, the owner of a building, structure or facility exempt from the Florida Building Code, or the owner's authorized agent, shall submit to the Floodplain Administrator:

(1) If a design flood elevation was used to determine the required elevation of the lowest floor, the certification of elevation of the lowest floor prepared and sealed by a Florida licensed professional surveyor; or

(2) If the elevation used to determine the required elevation of the lowest floor was determined in accordance with § 152.05(B)(3)(b) of this chapter, the documentation of height of the lowest floor above highest adjacent grade, prepared by the owner or the owner's authorized agent.

(E) Buildings, structures and facilities exempt from the Florida Building Code, final inspection. As part of the final inspection, the owner or owner's authorized agent shall submit to the Floodplain Administrator a final certification of elevation of the lowest floor or final documentation of the height of the lowest floor above the highest adjacent grade; such certifications and documentations shall be prepared as specified in § 152.06(D) of this chapter.

(F) Manufactured homes. The Building Official shall inspect manufactured homes that are installed or replaced in flood hazard areas to determine compliance with the requirements of this ordinance and the conditions of the issued permit. Upon placement of a manufactured home, certification of the elevation of the lowest floor shall be submitted to the Floodplain Administrator.

§ 152.07 VARIANCES AND APPEALS.

(A) General. The ~~Board of Adjustment~~ **Planning & Zoning Board**, as established by the city, shall hear and decide on requests for appeals and requests for variances from the strict application of this chapter. Pursuant to F.S. § 553.73(5), the Board of Adjustment shall hear and decide on requests for appeals and requests for variances from the strict application of the flood resistant construction requirements of the Florida Building Code.

(B) Appeals. The ~~Board of Adjustment~~ Planning & Zoning Board shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the Floodplain Administrator in the administration and enforcement of this chapter. Any person aggrieved by the decision of the ~~Board of Adjustment~~ Planning & Zoning Board may appeal such decision to the Circuit Court, as provided by Florida Statutes.

(C) Limitations on authority to grant variances. The ~~Board of Adjustment~~ Planning & Zoning Board shall base its decisions on variances on technical justifications submitted by applicants, the considerations for issuance in § 152.07(G) of this chapter, the conditions of issuance set forth in § 152.07(H) of this chapter, and the comments and recommendations of the Floodplain Administrator and the Building Official. The ~~Board of Adjustment~~ Planning & Zoning Board has the right to attach such conditions as it deems necessary to further the purposes and objectives of this chapter.

(D) Restrictions in floodways. A variance shall not be issued for any proposed development in a floodway if any increase in base flood elevations would result, as evidenced by the applicable analyses and certifications required in § 152.05(C) of this chapter.

(E) Historic buildings. A variance is authorized to be issued for the repair, improvement, or rehabilitation of a historic building that is determined eligible for the exception to the flood resistant construction requirements of the Florida Building Code, Existing Building, Chapter 11 Historic Buildings, upon a determination that the proposed repair, improvement, or rehabilitation will not preclude the building's continued designation as a historic building and the variance is the minimum necessary to preserve the historic character and design of the building. If the proposed work precludes the building's continued designation as a historic building, a variance shall not be granted and the building and any repair, improvement, and rehabilitation shall be subject to the requirements of the Florida Building Code.

(F) Functionally dependent uses. A variance is authorized to be issued for the construction or substantial improvement necessary for the conduct of a functionally dependent use, as defined in this chapter, provided the variance meets the requirements of §152.07(D), is the minimum necessary considering the flood hazard, and all due consideration has been given to use of methods and materials that minimize flood damage during occurrence of the base flood.

(G) Considerations for issuance of variances. In reviewing requests for variances, the ~~Board of Adjustment~~ Planning & Zoning Board shall consider all technical evaluations, all relevant factors, all other applicable provisions of the Florida Building Code, this chapter, and the following:

- (1) The danger that materials and debris may be swept onto other lands resulting in further injury or damage;

- (2) The danger to life and property due to flooding or erosion damage;
- (3) The susceptibility of the proposed development, including contents, to flood damage and the effect of such damage on current and future owners;
- (4) The importance of the services provided by the proposed development to the community;
- (5) The availability of alternate locations for the proposed development that are subject to lower risk of flooding or erosion;
- (6) The compatibility of the proposed development with existing and anticipated development;
- (7) The relationship of the proposed development to the comprehensive plan and floodplain management program for the area;
- (8) The safety of access to the property in times of flooding for ordinary and emergency vehicles;
- (9) The expected heights, velocity, duration, rate of rise and debris and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site; and
- (10) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems, streets and bridges.

(H) Conditions for issuance of variances. Variances shall be issued only upon:

- (1) Submission by the applicant of a showing of good and sufficient cause that the unique characteristics of the size, configuration, or topography of the site limit compliance with any provision of this chapter or the required elevation standards;
- (2) Determination by the **Board of Adjustment Planning & Zoning Board** that:
 - (a) Failure to grant the variance would result in exceptional hardship due to the physical characteristics of the land that render the lot undevelopable. Increased costs to satisfy the requirements or inconvenience do not constitute hardship;
 - (b) The granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, nor create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws and ordinances; and
 - (c) The variance is the minimum necessary, considering the flood hazard, to afford relief;
- (3) Receipt of a signed statement by the applicant that the variance, if granted, shall be recorded in the Office of the Clerk of the Court in such a manner that it appears in the chain of title of the affected parcel of land; and
- (4) If the request is for a variance to allow construction of the lowest floor of a new building, or substantial improvement of a building, below the required elevation, a copy in the record of a written notice from the Floodplain Administrator to the applicant for the variance, specifying the difference between the base flood elevation and the proposed elevation of the lowest floor, stating that the cost of federal flood insurance will be commensurate with the increased risk resulting from the reduced floor elevation (up to amounts as high as \$25 for \$100 of insurance coverage), and stating that construction below the base flood elevation increases risks to life and property.

§ 152.08 VIOLATIONS.

(A) Violations. Any development that is not within the scope of the Florida Building Code but that is regulated by this chapter that is performed without an issued permit, that is in conflict with an issued permit, or that does not fully comply with this chapter, shall be deemed a violation of this chapter. A building or structure without the documentation of elevation of the lowest floor, other required design certifications, or other evidence of compliance required by this chapter or the Florida Building Code is presumed to be a violation until such time as that documentation is provided.

(B) Authority. For development that is not within the scope of the Florida Building Code but that is regulated by this chapter and that is determined to be a violation, the Floodplain Administrator is authorized to serve notices of violation or stop work orders to owners of the property involved, to the owner's agent, or to the person or persons performing the work.

(C) Unlawful continuance. Any person who violates this chapter or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than \$500 or imprisoned for not more than 90 days, or both; and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the city from taking such other lawful action as is necessary to prevent or remedy any violation.

DEFINITIONS

§ 152.20 DEFINITIONS.

Unless otherwise expressly stated, the following words and terms shall, for the purposes of this chapter have the meanings shown in this section. Where terms are not defined in this chapter and are defined in the Florida Building Code, such terms shall have the meanings ascribed to them in that code. Where terms are not defined in this chapter or the Florida Building Code, such terms shall have ordinarily accepted meanings such as the context implies.

“ALTERATION OF A WATERCOURSE.” A dam, impoundment, channel relocation, change in channel alignment, channelization, or change in cross-sectional area of the channel or the channel capacity, or any other form of modification which may alter, impede, retard or change the direction and/or velocity of the riverine flow of water during conditions of the base flood.

“APPEAL.” A request for a review of the Floodplain Administrator's interpretation of any provision of this chapter or a request for a variance.

“ASCE 24.” A standard titled Flood Resistant Design and Construction that is referenced by the Florida Building Code. ASCE 24 is developed and published by the American Society of Civil Engineers, Reston, VA.

“BASE FLOOD.” A flood having a 1% chance of being equaled or exceeded in any given year. [Also defined in FBC, B, Section 1612.2.] The base flood is commonly referred to as the "100-year flood" or the "1% annual chance flood."

“BASE FLOOD ELEVATION.” The elevation of the base flood, including wave height, relative to the National Geodetic Vertical Datum (NGVD), North American Vertical Datum (NAVD) or other datum specified on the Flood Insurance Rate Map (FIRM). [Also defined in FBC, B, Section 1612.2.]

“BASEMENT.” The portion of a building having its floor subgrade (below ground level) on all sides. [Also defined in FBC, B, Section 1612.2.]

“DESIGN FLOOD.” The flood associated with the greater of the following two areas: [Also defined in 35 FBC, B, Section 1612.2.]

- (1) Area with a floodplain subject to a 1% or greater chance of flooding in any year; or
- (2) Area designated as a flood hazard area on the community's flood hazard map, or otherwise legally designated.

“DESIGN FLOOD ELEVATION.” The elevation of the "design flood," including wave height, relative to the datum specified on the community's legally designated flood hazard map. In areas designated as Zone AO, the design flood elevation shall be the elevation of the highest existing grade of the building's perimeter plus the depth number (in feet) specified on the flood hazard map. In areas designated as Zone AO where the depth number is not specified on the map, the depth number shall be taken as being equal to two feet. [Also defined in FBC, B, Section 1612.2.]

“DEVELOPMENT.” Any man-made change to improved or unimproved real estate, including but not limited to, buildings or other structures, tanks, temporary structures, temporary or permanent storage of equipment or materials, mining, dredging, filling, grading, paving, excavations, drilling operations or any other land disturbing activities.

“ENCROACHMENT.” The placement of fill, excavation, buildings, permanent structures or other development into a flood hazard area which may impede or alter the flow capacity of riverine flood hazard areas.

“EXISTING BUILDING AND EXISTING STRUCTURE.” Any buildings and structures for which the "start of construction" commenced before March 18, 1980. [Also defined in FBC, B, Section 1612.2.]

“EXISTING MANUFACTURED HOME PARK OR SUBDIVISION.” A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before March 18, 1980.

“EXPANSION TO AN EXISTING MANUFACTURED HOME PARK OR SUBDIVISION.” The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

“FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA).” The federal agency that, in addition to carrying out other functions, administers the National Flood Insurance Program.

“FLOOD OR FLOODING.” A general and temporary condition of partial or complete inundation of normally dry land from: [Also defined in FBC, B, Section 1612.2.]

- (1) The overflow of inland or tidal waters.
- (2) The unusual and rapid accumulation or runoff of surface waters from any source.

“FLOOD DAMAGE-RESISTANT MATERIALS.” Any construction material capable of withstanding direct and prolonged contact with floodwaters without sustaining any damage that requires more than cosmetic repair. [Also defined in FBC, B, Section 1612.2.]

“FLOOD HAZARD AREA.” The greater of the following two areas: [Also defined in FBC, B, Section 1612.2.]

- (1) The area within a floodplain subject to a 1% or greater chance of flooding in any year.
- (2) The area designated as a flood hazard area on the community's flood hazard map, or otherwise legally designated.

“FLOOD INSURANCE RATE MAP (FIRM).” The official map of the community on which the Federal Emergency Management Agency has delineated both special flood hazard areas and the risk premium zones applicable to the community. [Also defined in FBC, B, Section 1612.2.]

“FLOOD INSURANCE STUDY (FIS).” The official report provided by the Federal Emergency Management Agency that contains the flood insurance rate map, the flood boundary and floodway map (if applicable), the water surface elevations of the base flood, and supporting technical data. [Also defined in FBC, B, Section 1612.2.]

“FLOODPLAIN ADMINISTRATOR.” The office or position designated and charged with the administration and enforcement of this chapter (may be referred to as the Floodplain Manager).

“FLOODPLAIN DEVELOPMENT PERMIT OR APPROVAL.” An official document or certificate issued by the community, or other evidence of approval or concurrence, which authorizes performance of specific development activities that are located in flood hazard areas and that are determined to be compliant with this chapter.

“FLOODWAY.” The channel of a river or other riverine watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a ~~designated height.~~ **one (1) foot.** [Also defined in FBC, B, Section 1612.2.]

“FLOODWAY ENCROACHMENT ANALYSIS.” An engineering analysis of the impact that a proposed encroachment into a floodway is expected to have on the floodway boundaries and base flood elevations. The evaluation shall be prepared by a qualified Florida licensed engineer using standard engineering methods and models.

“FLORIDA BUILDING CODE.” The family of codes adopted by the Florida Building Commission, including: Florida Building Code, Building; Florida Building Code, Residential; Florida Building Code, Existing Building; Florida Building Code, Mechanical; Florida Building Code, Plumbing; Florida Building Code, Fuel Gas.

“FUNCTIONALLY DEPENDENT USE.” A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water, including only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities. The term does not include long-term storage or related manufacturing facilities.

“HIGHEST ADJACENT GRADE.” The highest natural elevation of the ground surface prior to construction next to the proposed walls or foundation of a structure.

“HISTORIC STRUCTURE.” Any structure that is determined eligible for the exception to the flood hazard area requirements of the Florida Building Code, Existing Building, Chapter 11 Historic Buildings.

“LETTER OF MAP CHANGE (LOMC).” An official determination issued by FEMA that amends or revises an effective flood insurance rate map or flood insurance study. Letters of map change includes:

(1) “LETTER OF MAP AMENDMENT (LOMA).” An amendment based on technical data showing that a property was incorrectly included in a designated special flood hazard area. A LOMA amends the current effective flood insurance rate map and establishes that a specific property, portion of a property, or structure is not located in a special flood hazard area.

(2) “LETTER OF MAP REVISION (LOMR).” A revision based on technical data that may show changes to flood zones, flood elevations, special flood hazard area boundaries and floodway delineations, and other planimetric features.

(3) “LETTER OF MAP REVISION BASED ON FILL (LOMR-F).” A determination that a structure or parcel of land has been elevated by fill above the base flood elevation and is, therefore, no longer located within the special flood hazard area. In order to qualify for this determination, the fill must have been permitted and placed in accordance with the community's floodplain management regulations.

(4) “CONDITIONAL LETTER OF MAP REVISION (CLOMR).” A formal review and comment as to whether a proposed flood protection project or other project complies with the minimum NFIP requirements for such projects with respect to delineation of special flood hazard areas. A CLOMR does not revise the effective flood insurance rate map or flood insurance study. Upon submission and approval of certified as-built documentation, a letter of map revision may be issued by FEMA to revise the effective FIRM.

“LIGHT-DUTY TRUCK.” As defined in 40 C.F.R. 86.082-2, any motor vehicle rated at 8,500 pounds gross vehicular weight rating or less which has a vehicular curb weight of 6,000 pounds or less and which has a basic vehicle frontal area of 45 square feet or less, which is:

- (1) Designed primarily for purposes of transportation of property or is a derivation of such a vehicle, or
- (2) Designed primarily for transportation of persons and has a capacity of more than 12 persons; or
- (3) Available with special features enabling off-street or off-highway operation and use.

“LOWEST FLOOR.” The **lowest** floor of the lowest enclosed area of a building or structure, including basement, but excluding any unfinished or flood-resistant enclosure, **other than a basement,** usable solely for vehicle parking, building access or limited storage provided that such enclosure is not built so as to render the structure in violation of the **non-elevation requirements of the** Florida Building Code or ASCE 24. [Also defined in FBC, B, Section 1612.2.]

“MANUFACTURED HOME.” A structure, transportable in one or more sections, which is eight (8) feet or more in width and greater than 400 square feet, and which is built on a permanent, integral chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term "MANUFACTURED HOME" does not include a "RECREATIONAL VEHICLE" or "PARK TRAILER." [Also defined in 15C-1.0101, F.A.C.]

“MANUFACTURED HOME PARK OR SUBDIVISION.” A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

“MARKET VALUE.” The price at which a property will change hands between a willing buyer and a willing seller, neither party being under compulsion to buy or sell and both having reasonable knowledge of relevant facts. As used in this chapter the term refers to the market value of buildings and structures, excluding the land and other improvements on the parcel. Market value may be established by a qualified independent appraiser, actual cash value (replacement cost depreciated for age and quality of construction), or tax assessment value adjusted to approximate market value by a factor provided by the property appraiser.

“NEW CONSTRUCTION.” For the purposes of administration of this chapter and the flood resistant construction requirements of the Florida Building Code, structures for which the "start of construction" commenced on or after March 18, 1980 and includes any subsequent improvements to such structures.

“NEW MANUFACTURED HOME PARK OR SUBDIVISION.” A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after March 18, 1980.

“PARK TRAILER.” A transportable unit which has a body width not exceeding 14 feet and which is built on a single chassis and is designed to provide seasonal or temporary living quarters when connected to utilities necessary for operation of installed fixtures and appliances. [Defined in ~~15C-1.0101, F.A.C.~~ Section 320.01 F.S.]

“RECREATIONAL VEHICLE.” A vehicle, including a park trailer, which is: [Defined ~~in~~ See F.S. § 320.01**(b)** F.S.]

- (1) Built on a single chassis;
- (2) Four hundred square feet or less when measured at the largest horizontal projection;
- (3) Designed to be self-propelled or permanently towable by a light-duty truck; and
- (4) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

“SPECIAL FLOOD HAZARD AREA.” An area in the floodplain subject to a 1% or greater chance of flooding in any given year. Special flood hazard areas are shown on FIRMs as Zone A, AO, A1-A30, AE, A99, AH, V1-V30, VE or V. [Also defined in FBC, B Section 1612.2.]

“START OF CONSTRUCTION.” The date of issuance for new construction and substantial improvements to existing structures, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement is within 180 days of the date of the issuance. The actual start of construction means either the first placement of permanent construction of a building (including a manufactured home) on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns. Permanent construction does not include land preparation (such as clearing, grading, or filling), the installation of streets or walkways, excavation for a basement, footings, piers, or foundations, the erection of temporary forms or the installation of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main buildings. For a substantial improvement, the actual "start of construction" means the first alteration of any wall, ceiling, floor or other structural part of a building, whether or not that alteration affects the external dimensions of the building. [Also defined in FBC, B Section 1612.2.]

“SUBSTANTIAL DAMAGE.” Damage of any origin sustained by a building or structure whereby the cost of restoring the building or structure to its before-damaged condition would equal or exceed 40% of the market value of the building or structure before the damage occurred. [Also defined in FBC, B Section 1612.2.]

“SUBSTANTIAL IMPROVEMENT.” Any combination of repair, reconstruction, rehabilitation, addition or improvement of a building or structure taking place during a ten-year period, the cumulative cost of which equals or exceeds 40% of the market value of the structure before the improvement or repair is started. For each building or structure, the ten-year period begins on the date of the first improvement or repair of that building or structure subsequent to the effective date of this chapter. If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the actual repair work performed. The term does not, however, include either:

(1) Any project for improvement of a building required to correct existing health, sanitary or safety code violations identified by the Building Official and that are the minimum necessary to assure safe living conditions.

(2) Any alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure.

“VARIANCE.” A grant of relief from the requirements of this chapter, or the flood resistant construction requirements of the Florida Building Code, which permits construction in a manner that would not otherwise be permitted by this chapter or the Florida Building Code.

“WATERCOURSE.” A river, creek, stream, channel or other topographic feature in, on, through, or over which water flows at least periodically.

FLOOD RESISTANT DEVELOPMENT

§ 152.35 BUILDINGS AND STRUCTURES.

Design and construction of buildings, structures and facilities exempt from the Florida Building Code. Pursuant to § 152.04(C) of this chapter, buildings, structures, and facilities that are exempt from the Florida Building Code, including substantial improvement or repair of substantial damage of such buildings, structures and facilities, shall be designed and constructed in accordance with the flood load and flood resistant construction requirements of ASCE 24. Structures exempt from the Florida Building Code that are not walled and roofed buildings shall comply with the requirements of § 152.41 of this chapter.

§ 152.36 SUBDIVISIONS.

(A) Minimum requirements. Subdivision proposals, including proposals for manufactured home parks and subdivisions, shall be reviewed to determine that:

(1) Such proposals are consistent with the need to minimize flood damage and will be reasonably safe from flooding;

(2) All public utilities and facilities such as sewer, gas, electric, communications, and water systems are located and constructed to minimize or eliminate flood damage; and

(3) Adequate drainage is provided to reduce exposure to flood hazards **in Zones AH and AO, adequate drainage paths shall be provided to guide floodwaters around and away from proposed structures.**

(B) Subdivision plats. Where any portion of proposed subdivisions, including manufactured home parks and subdivisions, lies within a flood hazard area, the following shall be required:

(1) Delineation of flood hazard areas, floodway boundaries and flood zones, and design flood elevations, as appropriate, shall be shown on preliminary plats and final plats;

(2) Where the subdivision has more than 50 lots or is larger than five acres and base flood elevations are not included on the FIRM, the base flood elevations determined in accordance with §152.05(B)(1) ~~or (2)~~ of this chapter; and

(3) Compliance with the site improvement and utilities requirements of § 152.37 of this chapter.

§ 152.37 SITE IMPROVEMENTS, UTILITIES AND LIMITATIONS.

(A) Minimum requirements. All proposed new development shall be reviewed to determine that:

(1) Such proposals are consistent with the need to minimize flood damage and will be reasonably safe from flooding;

(2) All public utilities and facilities such as sewer, gas, electric, communications, and water systems are located and constructed to minimize or eliminate flood damage; and

(3) Adequate drainage is provided to reduce exposure to flood hazards **in Zones AH and AO, adequate drainage paths shall be provided to guide floodwaters around and away from proposed structures.**

(B) Sanitary sewage facilities. All new and replacement sanitary sewage facilities, private sewage treatment plants (including all pumping stations and collector systems), and on-site waste disposal systems shall be designed in accordance with the standards for onsite sewage treatment and disposal systems in Chapter 64E-6, F.A.C. and ASCE 24 Chapter 7 to minimize or eliminate infiltration of floodwaters into the facilities and discharge from the facilities into flood waters, and impairment of the facilities and systems.

(C) Water supply facilities. All new and replacement water supply facilities shall be designed in accordance with the water well construction standards in Chapter 62-

532.500, F.A.C. and ASCE 24 Chapter 7 to minimize or eliminate infiltration of floodwaters into the systems.

(D) Limitations on sites in regulatory floodways. No development, including but not limited to site improvements, and land disturbing activity involving fill or regrading shall be authorized in the regulatory floodway unless the floodway encroachment analysis required in Section 105.3(1) of this chapter demonstrates that the proposed development or land disturbing activity will not result in any increase in the base flood elevation.

(E) Limitations on placement of fill. Subject to the limitations of this chapter, fill shall be designed to be stable under conditions of flooding including rapid rise and rapid drawdown of floodwaters, prolonged inundation, and protection against flood-related erosion and scour. In addition to these requirements, if intended to support buildings and structures (Zone A only), fill shall comply with the requirements of the Florida Building Code.

§ 152.38 MANUFACTURED HOMES.

(A) General. All manufactured homes installed in flood hazard areas shall be installed by an installer that is licensed pursuant to F.S. § 320.8249, and shall comply with the requirements of Chapter 15C-1, F.A.C. and the requirements of this chapter.

(B) Foundations. All new manufactured homes and replacement manufactured homes installed in flood hazard areas shall be installed on permanent, reinforced foundations that are designed in accordance with the foundation requirements of the Florida Building Code Residential Section R322.2 and this ordinance.

(C) Anchoring. All new manufactured homes and replacement manufactured homes shall be installed using methods and practices which minimize flood damage and shall be securely anchored to an adequately anchored foundation system to resist flotation, collapse or lateral movement. Methods of anchoring include, but are not limited to, use of over-the-top or frame ties to ground anchors. This anchoring requirement is in addition to applicable state and local anchoring requirements for wind resistance.

(D) Elevation. Manufactured homes that are placed, replaced, or substantially improved shall comply with § 152.38(D)(1) and (2) of this chapter, as applicable.

(1) General elevation requirement. Unless subject to the requirements of § 152.38(D)(2) below of this chapter, all manufactured homes that are placed, replaced, or substantially improved on sites located:

- (a) Outside of a manufactured home park or subdivision;
- (b) In a new manufactured home park or subdivision;
- (c) In an expansion to an existing manufactured home park or subdivision; or
- (d) In an existing manufactured home park or subdivision upon which a manufactured home has incurred "substantial damage" as the result of a flood, shall be

elevated such that the bottom of the frame is at or above the elevation required, as applicable to the flood hazard area, in the Florida Building Code, Residential Section R322.2 (Zone A).

(2) Elevation requirement for certain existing manufactured home parks and subdivisions. Manufactured homes that are not subject to § 152.38(D)(1) of this chapter, including manufactured homes that are placed, replaced, or substantially improved on sites located in an existing manufactured home park or subdivision, unless on a site where substantial damage as result of flooding has occurred, shall be elevated such that either the:

(a) Bottom of the frame of the manufactured home is at or above the elevation required in the Florida Building Code, Residential Section R322.2 (Zone A); or

(b) Bottom of the frame is supported by reinforced piers or other foundation elements of at least equivalent strength that are not less than 36 inches in height above grade.

(E) Enclosures. ~~Fully enclosed~~ Enclosed areas below elevated manufactured homes shall comply with the requirements of the Florida Building Code, Residential Section R322 for such enclosed areas.

(F) Utility equipment. Utility equipment that serves manufactured homes, including electric, heating, ventilation, plumbing, and air conditioning equipment and other service facilities, shall comply with the requirements of the Florida Building Code, Residential Section R322.

§ 152.39 RECREATIONAL VEHICLES AND PARK TRAILERS.

(A) Temporary placement. Recreational vehicles and park trailers placed temporarily in flood hazard areas shall:

(1) Be on the site for fewer than 180 consecutive days; or

(2) Be fully licensed and ready for highway use, which means the recreational vehicle or park model is on wheels or jacking system, is attached to the site only by quick-disconnect type utilities and security devices, and has no permanent attachments such as additions, rooms, stairs, decks and porches.

(B) Permanent placement. Recreational vehicles and park trailers that do not meet the limitations in § 152.39(A) of this ordinance for temporary placement shall meet the requirements of § 152.38 of this chapter for manufactured homes.

§ 152.40 TANKS.

(A) Underground tanks. Underground tanks in flood hazard areas shall be anchored to prevent flotation, collapse or lateral movement resulting from hydrodynamic and hydrostatic loads during conditions of the design flood, including the effects of buoyancy assuming the tank is empty.

(B) Above-ground tanks, not elevated. Above-ground tanks that do not meet the elevation requirements of § 152.40(C) of this chapter shall be permitted in flood hazard areas provided the tanks are anchored or otherwise designed and constructed to prevent flotation, collapse or lateral movement resulting from hydrodynamic and hydrostatic loads during conditions of the design flood, including the effects of buoyancy assuming the tank is empty and the effects of flood-borne debris.

(C) Above-ground tanks, elevated. Above-ground tanks in flood hazard areas shall be attached to and elevated to or above the design flood elevation on a supporting structure that is designed to prevent flotation, collapse or lateral movement during conditions of the design flood. Tank-supporting structures shall meet the foundation requirements of the applicable flood hazard area.

(C) Tank inlets and vents. Tank inlets, fill openings, outlets and vents shall be:

(1) At or above the design flood elevation or fitted with covers designed to prevent the inflow of floodwater or outflow of the contents of the tanks during conditions of the design flood; and

(2) Anchored to prevent lateral movement resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, during conditions of the design flood.

§ 152.41 OTHER DEVELOPMENT.

(A) General requirements for other development. All development, including man-made changes to improved or unimproved real estate for which specific provisions are not specified in this chapter or the Florida Building Code, shall:

(1) Be located and constructed to minimize flood damage;

(2) Meet the limitations of § 152.37(D) of this chapter if located in a regulated floodway;

(3) Be anchored to prevent flotation, collapse or lateral movement resulting from hydrostatic loads, including the effects of buoyancy, during conditions of the design flood;

(4) Be constructed of flood damage-resistant materials;

(5) Have a minimum finished floor elevation 1.5 feet above the base flood elevation; and

(6) Have mechanical, plumbing, and electrical systems above the design flood elevation, except that minimum electric service required to address life safety and electric code requirements is permitted below the design flood elevation provided it conforms to the provisions of the electrical part of building code for wet locations.

(B) Fences in regulated floodways. Fences in regulated floodways that have the potential to block the passage of floodwaters, such as stockade fences and wire mesh fences, shall meet the limitations of § 152.37(D) of this chapter.

(C) Retaining walls, sidewalks and driveways in regulated floodways. Retaining walls and sidewalks and driveways that involve the placement of fill in regulated floodways shall meet the limitations of § 152.37(D) of this chapter.

(D) Roads and watercourse crossings in regulated floodways. Roads and watercourse crossings, including roads, bridges, culverts, low-water crossings and similar means for vehicles or pedestrians to travel from one side of a watercourse to the other side, that encroach into regulated floodways shall meet the limitations of § 152.37(D) of this chapter. Alteration of a watercourse that is part of a road or watercourse crossing shall meet the requirements of § 152.05(C)(3) of this chapter.

Section 2. Severability. In the event that any portion or section of this Ordinance is determined to be invalid, illegal or unconstitutional by a court of competent jurisdiction, such decision shall in no manner affect the remaining portions or sections of this Ordinance, which shall remain in full force and effect.

Section 3: Conflicts. All ordinances or parts of ordinances in conflict with this Ordinance are hereby repealed.

Section 4. Codification. It is the intention of the City Commission that the provisions of this Ordinance shall become and be made part of the Code of Ordinances of the City of Lake Mary, Florida and the word “ordinance” may be changed to “section”, “article”, or other appropriate word or phrase and the sections of this Ordinance may be renumbered or re-lettered to accomplish such intention.

Section 5: Effective date. This ordinance shall become effective immediately upon passage and adoption.

PASSED AND ADOPTED this _____ day of _____,
2014.

CAROL A. FOSTER, CITY CLERK

DAVID J. MEALOR, MAYOR

For use and reliance of the City of Lake
Mary only. Approved as to form and legality.

CATHERINE D. REISCHMANN, CITY ATTORNEY

CITY MANAGER'S REPORT

DATE: December 4, 2014
TO: Mayor and City Commission
FROM: Jackie Sova, City Manager
SUBJECT: City Manager's Report

ITEMS FOR COMMISSION ACTION:

1. Final Design Plan for SunRail Entry Feature.
2. Vehicle and Equipment Replacements for FY 2015; and New Vehicle for New Police Sergeant.
3. Computer Purchases and Surplus.

CITY MANAGER'S REPORT

DATE: December 4, 2014
TO: Mayor and City Commission
FROM: Stephen Noto, Senior Planner
THRU: John Omana, Community Development Director
VIA: Jackie Sova, City Manager
SUBJECT: Final Design Plan for SunRail Entry Feature Sign

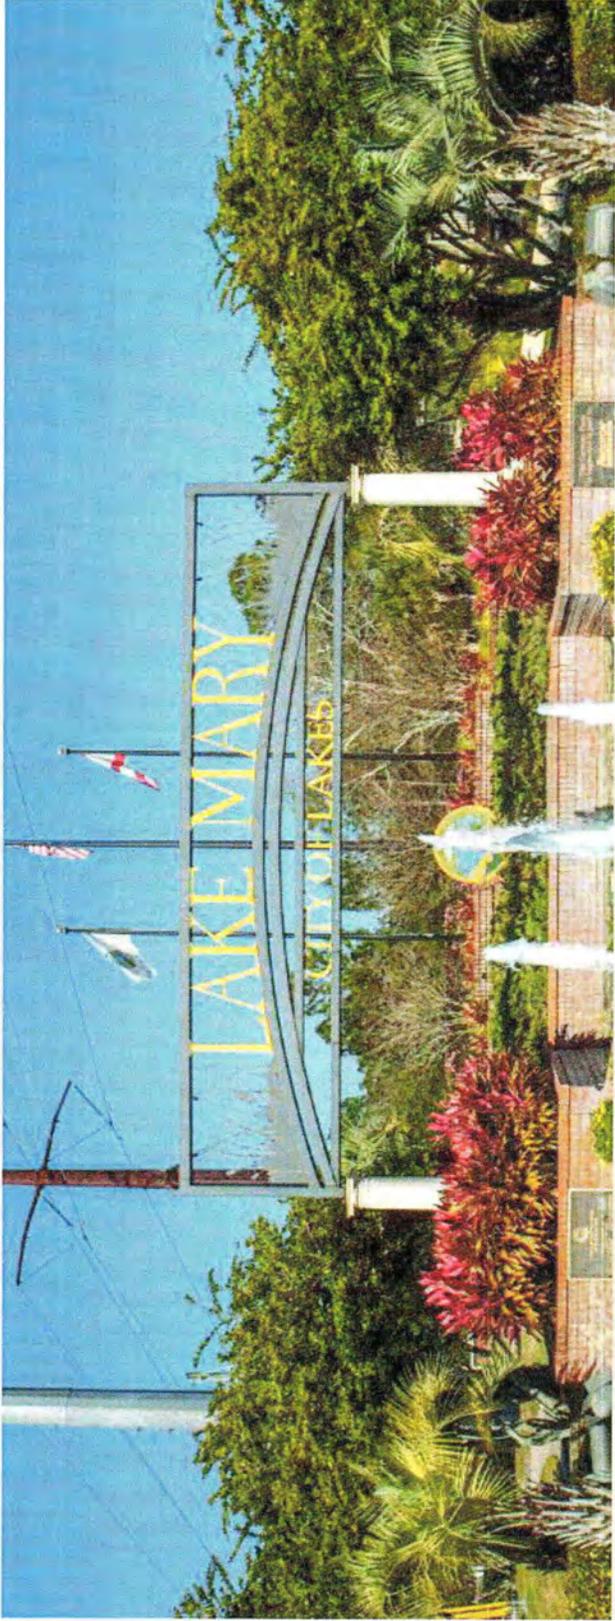

BACKGROUND: On November 20, 2014, staff updated the City Commission on the SunRail Entry Feature Sign that is part of the SunRail Enhancement Projects. Based on the four options presented, staff was directed to bring a final design back that was more similar to the monument sign at Trailhead Park (i.e. more curves, more dimensional aspects).

Attached, for reference, is a photo of the Trailhead Park sign. Additionally, FASTSIGNS has prepared new designs based upon the City Commission's direction that will be presented at the December 4th meeting (they are not included in this memo due to the short turn-around time, and holiday week).

REQUEST: Staff is requesting that the City Commission direct staff to move forward with purchase and design of the monument sign. Final installation will not occur until the City completes its infrastructure improvements on N. Palmetto St. (i.e. traffic signal, right-turn lane, lift station, etc.)

ATTACHMENTS:

- Photo of Trailhead Park Sign

CITY MANAGER'S REPORT

DATE: December 4, 2014

TO: Mayor and City Commission

FROM: Bruce Paster, P.E., Director of Public Works

VIA: Jackie Sova, City Manager

SUBJECT: Vehicle and Equipment Replacements for FY 2015; and New Vehicle for New Police Sergeant

DISCUSSION: The FY 2015 budget includes the replacement of:

- 3 – Public Works vehicles;
- 2 – Public Works mowers;
- 1 – Public Works equipment trailer;
- 1 – Parks & Recreation vehicle;
- 4 – Parks & Recreation mowers/work carts;
- 2 – Fire Prevention vehicles; and
- 3 – Police vehicles.

Below is a description of each new item along with the item it replaces. Please see attached quotes for additional details.

PUBLIC WORKS

1. 2015 Ford F-450 Crane Work Truck
F-450 Crane Work Truck under FSA bid #14-22-0904 through Duval Ford: \$67,146.00; Dana Safety Supply lighting and equipment: \$2,164.00; Southern Custom Creations decals: \$150.00. Total cost of replacement is \$69,460.00. This vehicle will replace a 2004 F-550 Crane Truck.

2. 2015 Caterpillar CT660 Dump Truck
CT660 Dump Truck under FSA bid #14-22-0904 through Ring Power Fleet Sales: \$132,719.00 (after \$16,500 trade-in value of 1997 dump truck); Dana Safety Supply lighting and equipment: \$1,698.00; Southern Custom Creations decals: \$150.00. Total cost of replacement is \$134,567.00. This vehicle will replace a 1997 Ford Dump Truck.
3. 2015 Ford F-250 Utility Truck
F-250 Utility Truck under FSA bid #14-22-0904 through Duval Ford: \$34,607.00; Dana Safety Supply lighting and equipment: \$4,995.00; Southern Custom Creations decals: \$150.00. Total cost of replacement is \$39,752.00. This vehicle will replace a 1999 F-250.

2. 2015 Ford Explorer Interceptor K-9
Full size marked utility vehicle w/Police K-9 package under FSA bid #14-22-0904 through Duval Ford: \$32,083.00; Dana Safety Supply lighting, equipment and decals: \$14,011.98; Digital Ally Camera System: \$4,224.00. Total cost of replacement is \$50,318.98. This vehicle will replace a 2010 Ford Crown Victoria K-9.

Note: all Dana Safety Supply equipment will be purchased under City of Tallahassee contract #1489, RFP #0233-06-BM-TC.

Summary

Vehicles to be replaced:

1. #66 - 04 Ford F-550 Crane Truck
2. #40 - 97 Ford Dump Truck
3. #49 - 99 Ford F-250
4. #532 - 05 Toro Grounds Master
5. #536 - 06 Toro Grounds Master
6. #515 - 00 Crosley Tandem Trailer
7. #543 - 07 Ford F-150
8. #535 - 06 Toro Workman Cart
9. #559 - 05 Clubcar Golf Cart
10. #551 - 09 Toro Master Mower
11. #552 - 09 Toro Master Mower

Replacement vehicles (2015):

- Ford F-450 Crane Truck
- Caterpillar CT660 Dump Truck
- Ford F-250 Utility Truck
- Toro Zero-Turn Mower
- Toro Zero-Turn Mower
- Equipment Trailer
- Ford F-150 Crew Cab
- Workman Heavy Duty Utility Vehicle
- Workman Mid Duty Utility Vehicle
- Toro Zero-Turn Mower
- Toro Zero-Turn Mower

Vehicles to be replaced:

12.#328 - 08 Ford Ranger
13.#356 - 08 Ford Explorer
14.#2252 - 10 Chevy Impala Marked
15.#2253 - 10 Chevy Impala Marked
16.#2254 - 10 Ford Crown Vic K-9

Replacement vehicles (2015):

Ford F-150 Pick-up Truck
Ford F-150 Pick-up Truck
Ford Explorer Interceptor
Ford Explorer Interceptor
Ford Explorer Interceptor K-9

The total cost of the 16 replacement vehicles with appurtenances is \$546,464.14. Funding for this purchase was approved in the vehicle replacement budget in the amount of \$574,400. We are also requesting that the vehicles listed in the above summary be declared surplus.

Vehicle #2254 will be used to replace an older spare K-9 vehicle currently in our fleet. We are also requesting to declare the older vehicle, Unit #2228, surplus.

In addition to the replacement vehicles described above the FY 2015 budget includes the purchase of a new vehicle out of the Police Impact Fees Fund for our new Police Sergeant as described below.

Please indicate your acceptance of this quote as an order by signing below and returning via fax to Wesco Turf, Inc. at 866-348-9981 or 407-732-5039.
Please include your preference for Height of Cut where applicable.

Kathy Gehr
City of Lake Mary

Date

The above quote meets or exceeds ANSI Safety Specification. Toro Commercial Equipment carries a two-year or 1500 hour warranty. Toro Consumer / Landscape Contractor Equipment carries a one-year limited warranty.

The preceding pricing is good for 30 days, not including Florida Sales Tax, after which time new pricing would have to be submitted. Also included in the pricing is training as needed for your Service Technicians. Time of delivery may vary; please check when placing order. All payments are subject to state and local taxes, if any.

Thank you for considering Wesco Turf, Inc. for your equipment needs. If I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

Jerry Adams

TERMS OF SALE

Your purchase of goods from Digital Ally, Inc., a Nevada corporation ("Digital Ally") will be governed by the following terms of sale ("Terms"). You will be referred to throughout these Terms as "you".

1. **Exclusion of Other Terms; Entire Agreement.** Additional or different terms or conditions proposed by you (including any additional or different terms provided in a purchase order) will be void and of no effect unless specifically accepted in writing by Digital Ally. Digital Ally's sales invoice, these Terms, the warranty and any special conditions executed by you and Digital Ally (collectively, the "Order") supersede and cancel all prior communications between us, whether verbal or written, and constitutes the entire agreement between us unless modified in writing and signed by each of us.
2. **Payment.** Payment terms are cash on delivery, except where credit has been established and maintained to Digital Ally's satisfaction. If you have established credit, payment terms are net 30 days from date of shipment. Any invoice that you fail to pay when due will bear interest at the rate of 1-1/2% per month or the highest rate then permitted by law, whichever is less. You must also reimburse Digital Ally for its costs incurred (including internal administrative expenses and reasonable attorneys' fees) in the collection of your past due invoices.
3. **Security Interest.** Digital Ally retains a security interest in all goods delivered to you and all proceeds until paid in full. You agree, without further consideration, at any time to do or cause to be done, all acts, and to execute and deliver, all such documents as may reasonably be requested in order to protect Digital Ally's security interest in the goods, including the filing of financing statements may deem necessary to perfect its security interest.
4. **Taxes.** In addition to the purchase price, you must pay any sales, excise or similar taxes applicable to the transaction, unless you provide Digital Ally with a valid tax exemption certificate. You must pay use taxes, if applicable to the transaction, directly to the appropriate taxing authority.
5. **Shipment.** Digital Ally will use commercially reasonable efforts to comply with your shipping instructions. You must prepay all transportation and insurance charges prior to shipment. Unless otherwise stated by Digital Ally, all shipments will be F.O.B. (free on board) Digital Ally's manufacturing facility in Grain Valley, Missouri.
6. **Force Majeure.** Digital Ally will not be liable to you for any loss, damage, delay, or failure of delivery resulting from causes that are beyond Digital Ally's reasonable control. **DIGITAL ALLY WILL NOT BE LIABLE FOR CONSEQUENTIAL DAMAGES FROM ANY DELAY WHATSOEVER.**
7. **Limitation of Liability.** You assume all risk from your purchase and use of the goods. Neither you nor Digital Ally will be liable to the other for any consequential damages, punitive damages, special, incidental or exemplary damages suffered by the other in connection with its performance of its obligations under this Order. **DIGITAL ALLY'S AGGREGATE LIABILITY UNDER THIS ORDER WILL NOT EXCEED AMOUNTS PAID BY YOU TO DIGITAL ALLY UNDER THIS ORDER.**
8. **Warranty; Limitations on Remedies.** Digital Ally's warranty on the goods provided under the Order is set out in a separate statement, which sets forth the only warranty applicable to the goods sold under this Order. **THAT WARRANTY IS GIVEN IN LIEU OF ALL OTHER WARRANTIES. THERE ARE NO WARRANTIES THAT EXTEND BEYOND DIGITAL ALLY'S WARRANTY STATEMENT. ALL IMPLIED WARRANTIES ARE DISCLAIMED, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, FITNESS FOR A PARTICULAR PURPOSE, AND WARRANTIES IMPLIED FROM A COURSE OF DEALING, COURSE OF PERFORMANCE OR USAGE OF TRADE. YOUR SOLE AND EXCLUSIVE REMEDY FOR A WARRANTY CLAIM WILL BE THE REPAIR OR REPLACEMENT OF THE GOODS.**
9. **Indemnity.** You will defend Digital Ally, its managers, agents, employees, successors and assigns, and will pay all damages, losses, costs and expenses, including reasonable attorney's fees, incurred by the indemnified party arising out of, or incidental to, your selection, purchase and use of the goods under this Order. This indemnification will survive the expiration or termination of this Order.
10. **Risk of Loss.** Risk of loss to goods purchased will pass to you at the earlier of the time the goods are (a) duly delivered to the carrier, or (b) duly tendered to you for delivery.
11. **Acceptance; Claims for Shortage or Error.** Delivered goods will be deemed accepted upon the earlier of your formal acceptance of the goods or the expiration of 30 days from receipt. If you discover upon initial inspection that (a) some or all of the goods are defective or (b) do not conform to Digital Ally's warranty, may be returned to Digital Ally for replacement or a refund of the purchase price. Digital Ally is not responsible for goods lost or damaged in transit. You are solely responsible for filing claims against the carrier for any loss or damage. Digital Ally will furnish all available information and give any other reasonable assistance requested to assist you in filing a claim. Claims for shortages in shipment not chargeable against the carrier will not be considered unless notice is given within 10 days from date of receipt.
12. **Governing Law; Jurisdiction and Venue.** This Order and all disputes arising under this Order are exclusively subject to, governed by, and construed in accordance with the law of the State of Kansas, without regard to rules of conflicts of law. Any action relating to this Order must be brought in state or federal courts located in Johnson County, Kansas, and the parties hereby irrevocably consent to the exclusive jurisdiction of, and venue in such courts.
13. **Prevailing Party's Attorneys' Fees.** In the event of any litigation or arbitration related to this Order, the prevailing party will be entitled to recover from the non-prevailing party, the costs and expenses (including attorneys' fees) reasonably incurred by the prevailing party in connection therewith.

CITY MANAGER'S REPORT

DATE: December 4, 2014
TO: Mayor and City Commission
FROM: Dianne Holloway, Finance Director
VIA: Jackie Sova, City Manager
SUBJECT: Computer Purchases and Surplus

We are in the process of ordering computer replacements as budgeted for FY 2015. We will purchase (30) desktops and twelve (12) laptops. During this process we will shift some of the older computers to areas where the usage is less intense but the systems are still functioning well.

Computers being replaced are beyond or at the end of their useful lives and need to be surplus. Currently, we have 33 desktops that are operating on Windows XP and Microsoft is no longer supporting that operating system. Additionally, we have 14 laptops that are not functioning properly due to extended periods of time operating in police vehicles.

Recommendation:

Request Commission authorize purchase of Dell computers in an amount not to exceed \$48,345, declare forty-seven (47) asset tag numbers below as surplus items, and authorize City Manager to dispose of same.

Surplus Item Asset Tag Numbers:

10541	10774	10849	10873	10907	10870	10906	10993	10980	10985
10489	10775	10854	10871	10909	10917	10908	10987	10989	10992
10847	10779	10856	10872	10874	10916	10976	10988	10982	
10972	10852	10846	10920	10914	10912	10806	10986	10990	
10782	10855	10863	10903	10911	10913	10886	10995	10991
